

Quantum Water Coolers

Quantum Tall Point of Use Coolers are designed for your office! No more lifting heavy bottles, never run out of water again, environmentally friendly and BPA Free!

A Healthier, more convenient and affordable alternative to bottled water.

Exceptional Simplicity

- Quantum Systems are built “filter-ready”. All components are factory-installed for you
- Quantum Systems are easy to install and service using quick connect/disconnect fittings
- Service accessibility and filter maintenance is done in minutes. Everything is at eye level!
- Dependability – our double float system ensures unlimited water at your finger tips

Features

- Extra large 2 litre “cold” and 1 litre “cool” water tank capacity
- Uses only 18” post-filter tubing length to reservoir to minimize contamination
- 33% more capacity than traditional coolers
- High flow faucets provide fast servings
- Plug-and-play design. Filter installed in fixed location for convenient service
- Removable reservoir makes sanitizing quick and easy
- Factory-installed and tested to give you peace of mind
- Easy cartridge change, lift off the cover, twist out the cartridge and snap in a new one
- 58 ¼” tall – weighs 35 lbs.

If you do not have access to a water supply, we also offer Quantum Water Coolers with 18 liter water jugs.
